MATHEMATICS OF THE USSR – SBORNIK

МАТЕМАТИЧЕСКИЙ СБОРНИК

Tom 82(124) Nos. 1–4, 1970

Volume 11, Numbers 1–4 May–August, 1970 Pages 1–584

INDEX OF AUTHORS

Anfert'eva, E. A. and Čudakov, N. G. *Effective estimates from below of the norms of ideals of an imaginary quadratic field* 47

Barannik, L. F. and Gudivok, P. M. *Projective representations of finite groups over number rings* 391

Belogrivov, I. I. *Transcendence and algebraic independence of the values of some hypergeometric E-functions* 355

Benderskiĭ, M. M. and Pastur, L. A. *On the spectrum of the one-dimensional Schrödinger equation with a random potential* 245

Berezin, F. A. and Kac, G. I. *Lie groups with commuting and anticommuting parameters* 311

Blohina, G. N. *Theorems of Phragmén-Lindelöf type for linear elliptic equations of second order* 467

Brudnyĭ, Ju. A. *A multidimensional analog of a theorem of Whitney* 157

Černavskiĭ, A. V. *Piecewise linear approximation of imbeddings of manifolds in codimensions greater than two; Addendum to the paper "Piecewise linear approximation of imbeddings of cells and spheres in codimensions greater than two"* 465

Čudakov, N. G. See Anfert'eva, E. A. and Čudakov, N. G.

Egorov, Ju. V. *Nondegenerate subelliptic pseudodifferential operators* 291

Èskin, G. I. *Degenerate elliptic pseudodifferential equations of principal type* 539

Evgrafov, M. A. and Postnikov, M. M. *Asymptotic behavior of Green's functions for parabolic and elliptic equations with constant coefficients* 1

Feĭgin, V. I. *On the smoothness of the solutions of boundary value problems for parabolic and degenerate elliptic equations* 507

Fridman, B. L. *An estimate of the dimension of the null spaces of linear superpositions* 101

Geĭsberg, S. P. *On the properties of the normal mapping generated by the equation* $rt - s^2 = -f^2(x, y)$ 201

Gorin, E. A. *A function-algebra variant of a theorem of Bohr-van Kampen* 233

Gudivok, P. M. See Barannik, L. F. and Gudivok, P. M.

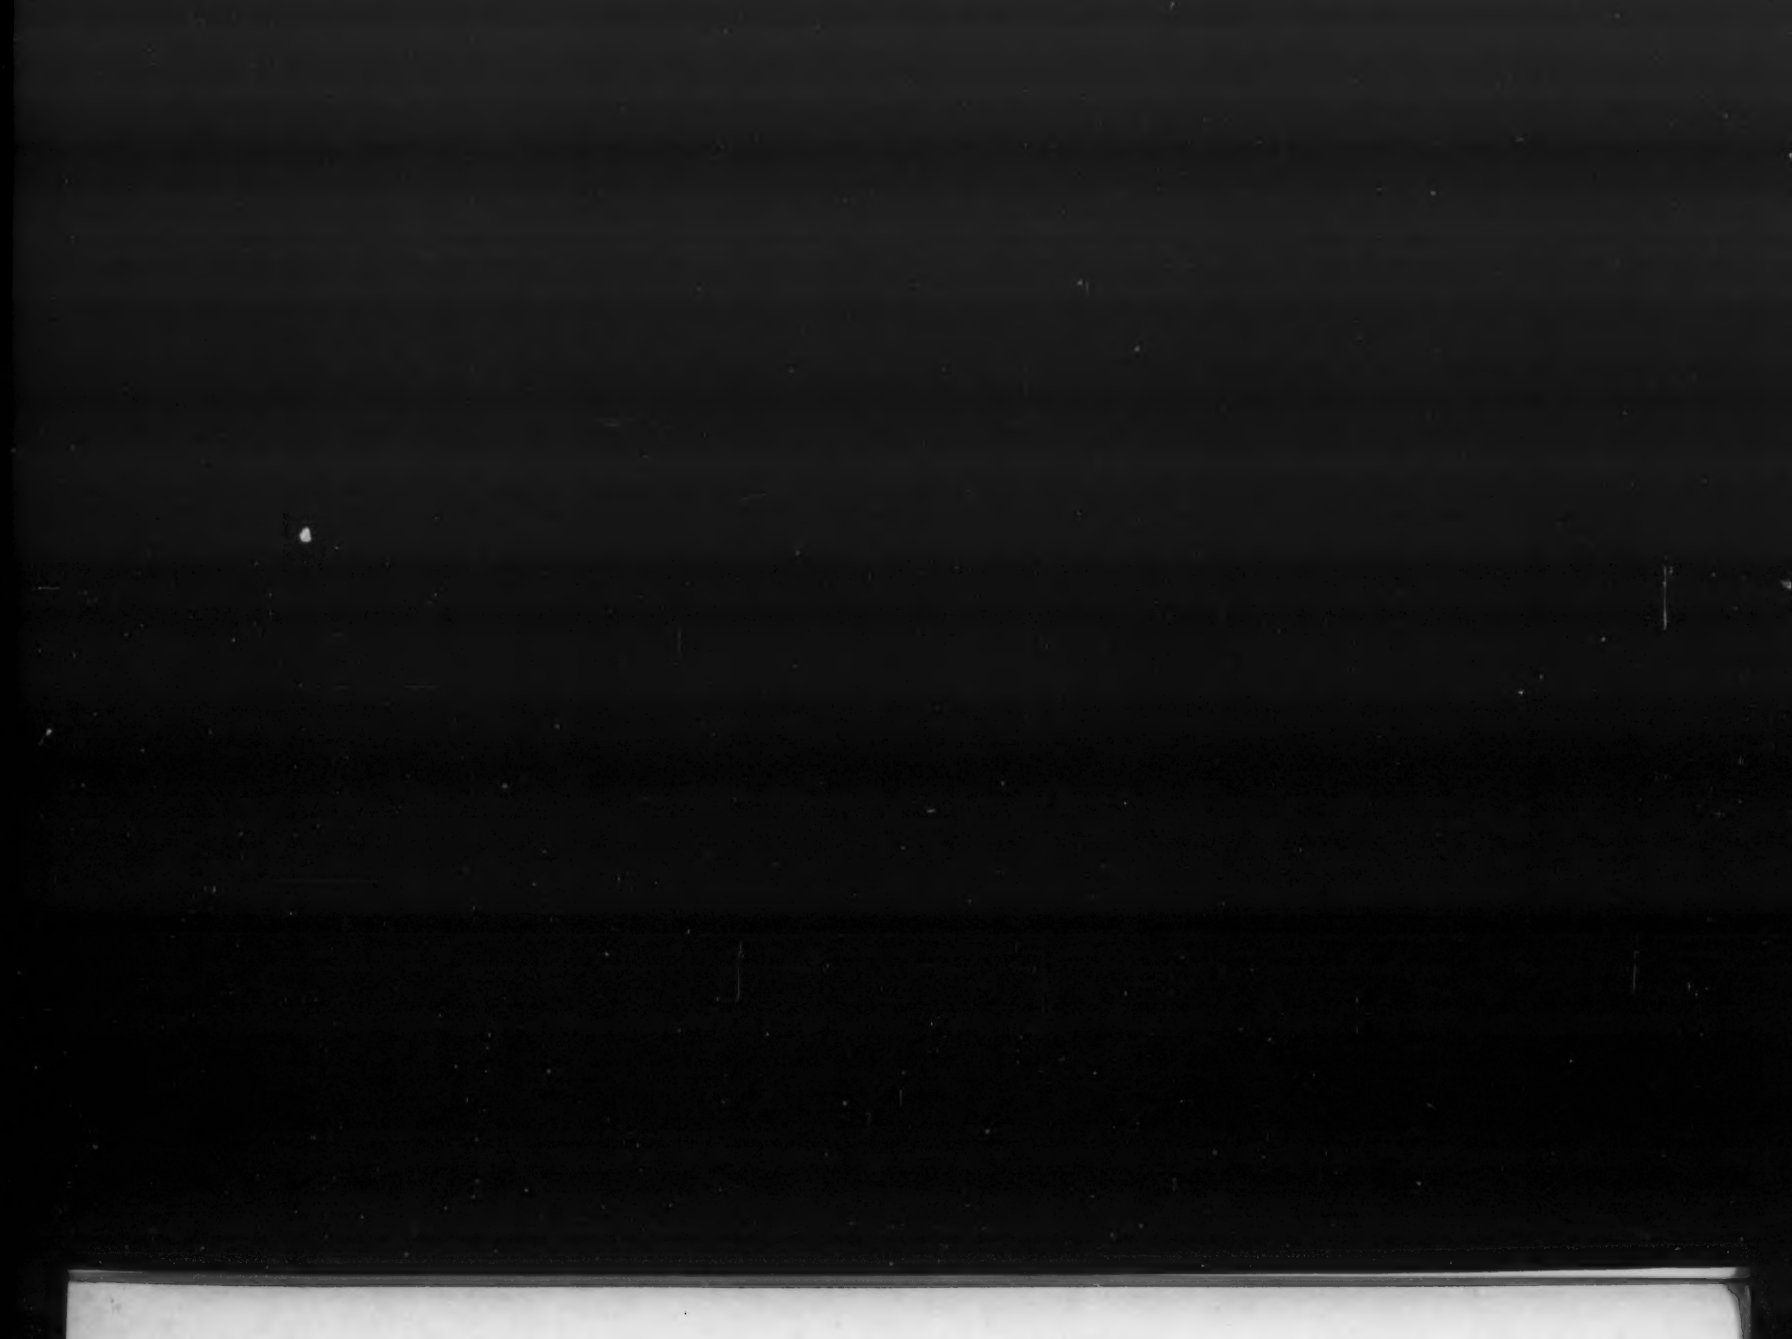
Henkin, G. M. *Integral representation of functions in strictly pseudoconvex domains and applications to the $\bar{\partial}$-problem* 273

Israilov, M. I. *An asymptotic formula for the number of solutions of a diophantine equation* 327

Kac, G. I. See Berezin, F. A. and Kac, G. I.

Kantor, B. E. *On the problem of the normal image of a complete surface of negative curvature* 197

Klimov, V. S. *On imbedding theorems for symmetric spaces* 339

Krylov, N. V. *Bounded inhomogeneous nonlinear elliptic and parabolic equations in the plane* 89


Lin, V. Ja. *Semi-invariant integration with values in a group and some of its applications* 209
Litvinčuk, G. S. and Nečaev, A. P. *A generalized Carleman boundary value problem* 25
Ljance, V. È. *Completely regular perturbation of a continuous spectrum* 115
Maksimov, V. M. *A convergence property of products of independent random variables on compact Lie groups* 423
Nečaev, A. P. See Litvinčuk, G. S. and Nečaev, A. P.
Novodvorskiĭ, M. E. *On representations of totally disconnected topological groups and their Hecke algebras over number fields* 59
Novodvorskiĭ, M. E. and Pjateckiĭ-Šapiro, I. I. *Some remarks on the torsion of elliptic curves* 283
Pastur, L. A. See Benderskiĭ, M. M, and Pastur, L. A.
Pjateckiĭ-Šapiro, I. I. See Novodvorskiĭ, M. E. and Pjateckiĭ-Šapiro, I. I.
Pohožaev, S. I. *On the eigenfunctions of quasilinear elliptic problems* 171
Postnikov, M. M. See Evgrafov, M. A. and Postnikov, M. M.
Rivilis, A. A. *Homogeneous locally symmetric regions in homogeneous spaces associated with semisimple Jordan algebras* 377
Rivlin, G. E. *A characterization of the category of a quasiprimitive class of universal algebras and its correspondences* 65
Ševcov, V. I. *On the reconstruction of a function from the known coefficients of the corresponding Dirichlet series* 529
Sinanjan, S. O. *Approximation by polynomials in the mean with respect to area* 411
Sitnikova, E. G. *A three spheres theorem for an elliptic equation of high order* 189
Skordev, G. S. *On resolutions of continuous mappings* 491
Šnirel′man, A. I. *Convolution equations in a halfspace* 441
Švarcman, O. V. *Linear representations of groups generated by reflections* 459
Vinogradskiĭ, A. S. *Boundary properties of surfaces with slowly varying negative curvature* 257
Zaharjuta, V. P. *Spaces of functions of one variable, analytic in open sets and on compacta* 75
Žitomirskiĭ, G. I. *Stable binary relations on universal algebras* 145
